Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

thank you for the services that you provide to us. we are also your loyal customers and we would not want the prices raised. more and more people are buying and using tracfones everyday and this will only decrease if the prices are raised. you are beating your competetors and this should be to your liking. again don't raise our rates.

thank you
